Address	: JAnARiA	Doctor	: ARDI
Phone	: +917395816924		

CHRONOLOGICAL PROGRESSION OF PHYSICAL SYMPTOM

The next day he developed pain in his neck and across his shoulders. He went to Green Bank Accident and Emergency Department where he was examined, no x-rays were taken and whiplash-type injury was diagnosed. He was discharged with advice. The pain was severe for one week, interfering with sleep and needing analgesics and then improved. He has had six sessions of physiotherapy which have proved helpful.
